LABOR MEN GO TO NIGHT SCHOOL

(City Associated Press)

SEATTLE, Feb. 9.—Union labor men of Seattle are going to their own school, the Workers' college and are taking courses, given by professors of the University of Washington.

The Workers' college is conducted under the auspices of the Seattle central labor council. It is open to all citizens, men and women. A large number of labor men, including officers of the council and the Washington state federation of labor, are enrolled.

The object of the college, it is announced, is to stimulate a desire for education among wage earners.

You Can Expect More From GOODYEAR TIRES

In satisfaction, in untroubled travel, in plain usefulness, they'll deliver—they are built to deliver just such a return on your investment.

Such tires are good for you to use. They will serve you as heartily and as loyally as tires can. They will yield you more for what you pay than is the rule.

As a traveling companion to a Goodyear Tire—A Goodyear Tube is the right kind of a tube to put inside your casing if you want it to deliver its maximum mileage.

We can tell you more about them.

MAIN STREET

NORTHERN TRADE CENTERS HERE

(Correspondence Associated Press)

CHRISTIANIA, Jan. 29.—Norway's increasing shipping business with the United States has received a big impetus since the war by reason of the fact that European markets are no longer able to supply the country's needs. New York and other American ports are now taking the place of Hamburg and London as the principal outlets for the over-sea trade of the Scandinavian countries. Moreover, a great many American export firms have established branches and agencies in Norway.

FUND FOR FAT STOCK

SALT LAKE CITY, Feb. 9.—Business men here have just completed the raising of a \$10,000 fund to insure the success of a fat livestock show to be staged in Salt Lake City soon.

Among the courses taught are dramatics, economics, social ethics, local government, cooperative movements, care of children and legal rights and duties of citizens.

Different Colors of Paper
Many business men have a system of using different colors of paper for different printed forms, thus distinguishing each form by its color.

We can work this system out for you, using **WAMMERS' BOND**

the Utility Business Paper, and you will find that it saves you time and money. Let us show you the advantage of standardizing your paper and your printing.

HINDUS SCARED BY PROPHECY

(Correspondence Associated Press)

LONDON, Jan. 22.—The masses in India, especially the ignorant villagers, were greatly agitated as the result of the prediction made by Professor Paria of America that December 17 would see the beginning of exceptional storms and earthquakes, says the Calcutta correspondent of the Daily Mail. By the time the prediction reached India it had grown into a declaration that the world was coming to an end. The correspondent says of these frightened people:

"They invoked their gods, made vows and offerings, bathed in the sacred streams, shaved their heads and set clothed practically in sackcloth and ashes. It is quite a common sight to see religious mendicants smeared all over with ash, awaiting the crack of doom."

It was rumored that Khuda (the deity) was going to descend on the Calcutta police station. At the police station scores of self-convinced astrologers argued some for and others against the prophecy. As soon as the weather got cloudy an aged Muslim, who was the complainant in a case of petty assault, put the court and for his case take care of itself. He said, he said, come home to die with his family.

TENT CITY OF THE FAR NORTH

(City Associated Press)

SEATTLE, Wash., Feb. 9.—Hydro, Alaska, center of the Hyder River mining properties, will become a tent city rivaling Nome and other famous "barren" towns if the expected spring influx of prospectors is realized according to James W. McDonald, pioneer of the Klondike who was in Seattle recently.

"The world is going to see another tent city in the spring," Mr. McDonald said. "Hydro's future is measured, and there is every indication that when the snow goes off there will be people all over the place."

Most of the newcomers will be disappointed. Mr. McDonald asserted, hundreds of them are used only to place mining while the Stewart River properties are all hard rock. The district will not be fully developed for five years, he said.

If you don't obey orders, you'll be in the line of fire.

Don't you have had a lot of fun?

Why look at his feet?

SHANGHAI FEARS THE RED MENACE

(Correspondence of Associated Press)

SHANGHAI, Jan. 5.—Fear of bolshevism entertained by employers in Shanghai is a factor which is making more difficult the hard lot of the hundreds of Russian refugees who have been fleeing in increased numbers out of Siberia into China.

The growing colony of these Russian refugees, whose numbers swelled after the Siberian capital of Omsk fell into the hands of the bolsheviks, has become a problem in the city of Shanghai. One handicap upon their efforts to obtain employment has been the reluctance of employers to give work to persons from Siberia believed to have been exposed to the bolshevik infection.

Members of the colony here which numbers several hundred have established a school where English is being taught to the newcomers. At first one or two of the colony itself acted as instructors. After a few weeks voluntary teachers came forward and classes are now being held day and night in the shabby and cramped quarters provided at No. 77 Bangs road. Another undertaking in the colony is a community food kitchen.

CHILE WIRELESS TO MEXICO CITY

(Correspondence Associated Press)

MEXICO CITY, Jan. 25.—Wireless communication between Mexico City and Santiago, Chile, has been established and the Mexican legation in the latter city is receiving approximately 2,000 words of news daily which is transmitted from the large station at Chapultepec to a receiving station at Santiago. Previously Chilean Mexican agencies in Chile published a daily news letter which was available to all interested Chileans.

STOP IN MEXICO TO BUY DRINKS

(City Associated Press)

CALIENTE, Cal., Feb. 9.—Caliente, an important trading passenger on the limited train of the San Diego and Arizona railroad, during the 20-minute stop daily for planes of engines and switching operations. Officials ordered the stop to be at Mexican cities the border, Mex.

You'll find a woman by telling her you don't have had a lot of fun?

Why look at his feet?

Your Chances of Winning in the Oil Game are 78 Per Cent

The oil industry is commanding more attention than any other business in the world today. Every barrel of oil that comes from Mother Earth is an addition to the world's wealth, and it is clean wealth. It is not taken from another, but from Nature's treasure house. No man is made poorer, but many are made richer. Like the farmer, the oil producer adds to the world's wealth.

From 1912, to July 1, 1919, there was a total of oil wells drilled in Texas of 6177. Of this number 4,667 wells produced oil or gas. The percentage was 76 per cent. This covers a period of seven years. In the last year and a half, 1918 to July 1, 1919, the total wells drilled was 2,355. The wells which produced were 1,889, making 78 per cent. This shows that there are close to four producing wells out of every five wells drilled.

The last offering of 25,000 shares of stock was oversubscribed and we are now offering an additional block of

25,000 Shares at 50 Cents per Share

Remember that the officers and directors of this company have the grit and determination to get things done. We have

14000 Acres of Oil Land in Mitchell Co., Texas

with producing wells on all four sides of us. Our construction work and drilling operations will go forward with speed and economy.

REMEMBER, IT IS DRIVING POWER THAT WINS. GET IN WITH REAL PEOPLE AND DO IT NOW. WIRE, WRITE, PHONE OR CALL.
